1st Solo Exhibition By *Iqwa Ahmad*

## Anything , Anywhere All At Once

Izwa Ahmad is an artist whose works celebrate the good side of being alone, both in the present and in the past. Her visual signature style is inspired by the vibes of animated Japanese cartoons, characterised by a colourful and pastel-ish pallet. Her art is a tribute to the self-supporting person living through time, and to the emotions of accepting being simultaneously alone and not in society.

The Perak-born artist's works reflect her own journey, seeking happiness and comfort in unfamiliar people and places. Her appreciation for the simple sparks of joy in everyday life is evident in her depictions of cute characters, creatures, and objects in certain places in Japan and Malaysia. These familiar images represent the joy of being part of those places, capturing the essence of the culture and society around her.

In her art, Izwa captures the essence of the journey of life, exploring the diversity of human experience. She portrays different states of mind and identities, yet she also feels a sense of familiarity with the situations and places she depicts. The visual of crowds and people itself helps her to feel okay about being alone, even in her circles.

Izwa feels that she is living in her own time machine as she creates her works. She captures moments in specific places, people, and stuff to represent her identity, reflecting her joy, sentiments, and insecurities. Her art is a celebration of the beauty and complexity of the human experience, inspiring us to find joy and comfort in the simple moments of everyday life and to embrace the diversity and richness of human experience.

At its heart, Izwa's art reflects her own journey and an exploration of the beauty and complexity of the human experience. Her works capture the essence of being alone yet not alone in society, inspiring us to find joy in the simple moments of everyday life and to celebrate the diversity and richness of human experience.

She paints a world  
Where solitude finds its place  
Through colours that are bright and bold  
We're invited to this space.

Inspired by anime's flair  
Her pastel palette sings  
Of happiness found everywhere  
In simple, lovely things.

From Japan to Malaysia  
Her memories come to life  
Cute characters and creature's play  
In scenes that are so rife.
